## Overview

You are hungry penguins racing to the sea. Your goal is to get to the water fast, but not first. An Orca is coming and will gobble up the leader of the pack. So push forward carefully, because the winner of this race is second place.

## Gameplay

Players simultaneously roll 2 dice each and choose 1 secretly to use. Then they reveal their dice, move, and advance the Orca toward the pack. The path is filled with chaos, but players can collect helpful fish scraps along the way for a few extra bites of control.
